

The PropphyBrite® Air Polisher

With the Keystone PropphyBrite® air polisher, effective stain and plaque removal becomes effortless for the practitioner and the patient.

**360°
swivel**

13G Powder chamber

Connects to most four-hole high speed hand piece tubing

About the PropphyBrite®

The PropphyBrite® provides quick and gentle patient care and requires no installation. It's the ideal dental air polisher for cleaning and preparing teeth prior to placement of orthodontic brackets, sealants, bleaching, and fluoride treatments.

Features & Benefits

- Patients experience a more comfortable process
- Profitability increases as a result of increased services and treatment enrollment by the dental hygienist
- Clinicians have more time per visit to perform services that have been elusive

This simple transition of going after the biofilm first with the most efficient technology saves about **10 minutes** of instrumentation time per patient.
