

Cora-Caine®

Cora-Caine® is a pain-relieving dental analgesic adhesive ointment for new or intermediate dentures.

About Cora-Caine®

Cora-Caine provides immediate relief and a secure fit by soothing tender ridges and relieving the discomfort of sore spots. Acting as a gel-like cushion between the denture and the tissue, Cora-Caine is applied directly onto the denture to provide positive retention and enhance stability.

TIPS: Cora-Caine is a great product to include in a new denture kit. Do not use Cora-Caine for patients who have a history of allergy to local anesthetics such as procaine, butacaine, or other “-caine” anesthetics.

Features & Benefits

- 16% Benzocaine
- Pink in color
- No smell or aftertaste
- Effective up to 24 hours
