## Mizzy Pressure Indicating Paste

## Pressure Indicating Paste (PIP) is a pure white silicone paste, used for seating crowns, bridges and full, immediate and partial dentures.

## About PIP

The brief procedure yields specific results that are easy to read and thoroughly reliable, surpassing results obtained with chemical set pressure indicating materials used to locate areas of denture discomfort. PIP is applied to the dry denture; companion PIP spray is applied to the tissue. The denture is then seated under pressure then removed. Areas where the paste has been displaced show points of excessive pressure.
