Section 1 – Identification

Product Name: WIRE WAX “KEWAX”
Manufacturer: Keystone Industries
52 W King St
Myerstown PA 17067

Chemical Name / Synonyms:
Wax

Information Contacts: (856) 333-3131

Emergency Phone Numbers:
US & Canada (800) 535-5053

Family: Dental waxes
Product Use: Dental Modeling

Product #:
1880500, 1880510, 1880520, 1880530,
1880540, 1880550, 1880560, 1880570, 1880580, 1880590,
1880600, 1880620, 1880630, 1880640, 1880650, 1880660,
1880670

Section 2 – Hazards Identification

EMERGENCY OVERVIEW
This information is based on findings from related or similar materials.

- Material is not considered hazardous by OSHA per 29 CFR 1910 and EU directives.
- Molten Resin cause severe thermal burns.
- Thermal decomposition will generate irritant and harmful gases.

Potential Health Effects, Signs and Symptoms of Exposure:

Primary Route of Entry

Eye
Fumes from molten product may cause irritation. Contact with molten product may cause severe thermal burns.

Skin
Prolong contact is essentially non-irritating to skin. There can be mechanical injury, if impacted with skin. Under normal processing conditions, material is heated to elevated temperatures; contact with the material can cause thermal burns. No adverse effects anticipated by skin absorption.

Ingestion
Low order of acute systematic toxicity.

Inhalation
Product dust may cause respiratory tract irritation. Molten wax may cause irritation to the respiratory tract.

NOTE: Refer to Section 11, Toxicological Information for Details

Section 3 – Composition/Information on Ingredients

None of the components in this product are considered hazardous by OSHA per 29 CFR 1910 and by any EU directives.
Consists of a mixture of waxes, resins, and pigments.

N/E – None Established
N/DA – No Data Available
N/R – Not Reviewed
N/A – Not Applicable

This product is completely colophony free with no detectable trace elements.

See Section 16 for Hazard and Precautionary Statement Key.

Section 4 – First Aid Measures

Solid Product is neither an irritant nor gives off hazardous vapours at ambient temperatures

First Aid for Eye
Ambient wax – flush wax particles with tepid water. Hot wax – seek medical attention.

First Aid for Skin
Ambient wax – wash with soap and water. Molten wax – cool wax immediately – do not remove wax from skin. Seek medical attention.

First Aid for Ingestion
Small quantities – permit to pass through system. Large quantities – seek medical attention.

First Aid for Inhalation
When fume or mist occurs remove to fresh air. If person is not breathing provide oxygen or artificial respiration. Seek medical attention.

Date of Issue: 01/09/2015
Section 5 – Fire Fighting Measures

<table>

</tr>
</tbody>
</table>

Method:
Extinguishing Media: Use water fog, alcohol-type foam, dry chemical, or CO2. Do not use direct stream of water.
Fire Fighting Instructions: Firefighters should wear proper protective equipment and self-contained breathing apparatus with full face piece in positive pressure mode. Move containers from fire area if it can be done without risk. Use water to keep fire-exposed containers cool.
Unusual Hazards: As with most solid or particulate organic material, extremely high dust concentration in air may result in a potential fire hazard. Good housekeeping practices will prevent any significant accumulations.

Section 6 – Accidental Release Measures

Spill or Release Procedures
Minor spills – Clean up immediately. Slipping hazard. In molten state, avoid contact with skin and eyes. If possible, allow material to cure, before handling.
Major spills – Clear area of personnel. Restrict access to area. Clean up immediately. Slipping hazard. In molten state, avoid contact with skin and eyes. If possible, allow material to cure, before handling. See section 8 & section 12.

Section 7 – Handling and Storage

Handling
No special handling requirements when product is at room temperature. If handling in molten state, see section 8. Observe good standard hygiene measures in handling chemical substances.

Storage
Store dry at temperatures not exceeding 45°C. Do not store in direct sunlight. Keep away from food.

Explosion Hazard
None.

Section 8 – Exposure Controls / Personal Protection

Engineering Controls
No special engineering controlled required. Local ventilation is adequate.

Personal Protective Equipment

General
To identify additional Personal Protective Equipment (PPE) requirements, it is recommended that a hazard assessment in accordance with the OSHA PPE Standard (29CFR1910.132), or European Standard EN166 be conducted before using this product.

Eye/ Face Protection
Wear safety glasses with side shields. Wear face shield during thermal process.

Skin Protection
Thermal insulating glove when handling molten product. Protective work clothing.

Respiratory Protection
None under ordinary operating use.

### Section 13 – Disposal Considerations

Dispose of in compliance with governmental regulation (state and federal).

Dispose of container and unused contents in accordance with federal, state and local requirements. For EU Member States, please refer to any relevant Community provisions relating to waste. In their absence, it is useful to remind the user that national or regional provisions may be in force.

### Section 14 – Transport Information

Non-regulated, non-hazardous material: DOT, IATA, IMO (IMDG).

### Section 15 – Regulatory Information

#### US Federal Regulations

- **Clean Air Act: HAP/ODS**
  - This product contains the following HAP’s or ODS:
    - NONE

- **Clean Water Act: Priority Pollutant**
  - This product contains the following chemicals listed under the U. S. Clean Water Act Priority Pollutant and Hazardous Substance List:
    - None

- **FDA: Food Packaging Status**
  - This product has not been cleared by the FDA for use in food packaging and / or other applications as an indirect food-packaging additive.

- **Occupational Safety and Health Act**
  - This product is considered to be hazardous under the OSHA Hazard Communication Standard. It’s hazards are:
    - None

- **SARA Title III: Section 302 (RQ)**
  - This product contains no chemicals regulated under Section 302 as extremely hazardous substances.

- **SARA Title III: Section 302 (TPQ)**
  - This product does not contain chemicals regulated under Section 304 as extremely hazardous chemicals for emergency release notification (“CERCLA” List).

- **SARA Title III: Section 311-312**
  - This product is not considered to be hazardous under the OSHA Hazard Communication Standard and is regulated under Section 311-312 (40 CFR 370).
Material Safety Data Sheet  WIRE WAX “KEWAX”

SARA Title III: Section 313: This product contains the following chemicals which are subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372:
- None

TSCA Section 8(b): Inventory: This product complies with US TSCA requirements.

TSCA Significant New Use Rule: None of the chemicals in this material have a SNUR under TSCA.

State Regulations
The components to this product are listed on the appropriate applicable state regulations.

International Regulations
CDSL: Canadian Inventory (on Canadian Transitional List) All components are listed, where applicable.
- Not Controlled by WHMIS

Labeling according to EC directives – 1272/2008 (CLP) AND 1999/45/EC (items in parenthesis relate to 1999/45/EC)

European Community: For Wire Wax “Kewax” (finished product):
- DANGER SYMBOLS: N/A – non hazardous
- HAZARD STATEMENT: N/A
- PRECAUTIONARY STATEMENT: N/A
