

PF2™ Mouthguard

Get Your Guard On™

Keystone Industries is proud to announce their newest addition to their industry-leading line of mouthguards, the PF2 Boil & Bite Mouthguard

Like every other mouthguard Keystone has to offer, the PF2 is designed for use with any sport, especially contact sports such as football, hockey, boxing, MMA, lacrosse, and field hockey. The major difference that separates PF2 from the traditional custom-fit Pro-Form® is that it's a boil & bite that fits like a custom guard.

This isn't like your standard boil-and-bite you see in retail outlets – the PF2 makes a name for itself as the boil-and-bite that fits like a custom-fit guard in its superior fit. In this, it allows for better communication and oxygen intake, both crucial to athletes of all sports. The dual-laminated guard protects teeth at the maximum, and fits to any mouth size.

No other guard on the market can be boiled to fit your mouth in under one minute and offer protection like a professionally-fit custom mouthguard. The cost and convenience are here for you – it's time to Get Your Guard On!

FEATURES AND BENEFITS

- Superior fit unlike any other boil-and-bite
- Molds to the teeth in under a minute
- Allows for better communication, oxygen intake
- Custom fit at a fraction of the cost
- Currently available in black and white
