

## ProphyBrite<sup>®</sup> Air Polishing Unit

With this dental air polisher, clogging and wrist fatigue will be the least of any dental hygienist's worries.

It has a unique system and ergonomic design. The ProphyBrite provides quick and gentle patient care and requires no installation. It works best by delivering a fine sodium bicarbonate and water slurry for easy removal of plaque and stains. It's the ideal dental air polisher for cleaning and preparing teeth prior to placement of orthodontic brackets, sealants, bleaching, and fluoride treatments.

**BUY a Pit & Fissure Kit,  
GET a Jumbo 50 ml Etch  
at no charge!**

## Pit & Fissure Sealant with Fluoride

The Pit & Fissure Sealant with Fluoride is a light cured resin which allows for controllable flowability, keeping the sealant on the tooth while completely filling the pits and fissures. This sealant cures to an opaque film on enamel.

#092156 Pit & Fissure Sealant with Fluoride

## Flexo<sup>®</sup> Disposable Plastic Saliva Ejectors

Flexos are flexible hygienic saliva ejectors that will adapt to any oral condition. They maintain their shape and do not collapse when bent. The specially designed soft, smooth tips provide patient comfort and will not pull tissue. The non-clog design and consistent shape retention will ensure a free flowing, perfect fit.
