ULTRASONIC SOLUTION

GENERAL PURPOSE ULTRASONIC SOLUTION NON-AMMONIATED LIQUID CONCENTRATE

Keep out of reach of children.

Net Contents:
128 fl oz (3.78 L)

Makes 10 gallons (37.85 L)
1:10 dilution ratio

REF 00122

CAUTION: US Federal law restricts this device to sale by, or on the order of a dental professional.

Advanced formulation combines nonionic surfactants, powerful chelators and corrosion inhibitors that enhance the cleaning action produced by ultrasonic cleaners while protecting and extending the life of delicate instruments. Effectively removes dried blood, saliva, pumice, rouge, buffing compounds, food debris, foreign matters and soils of all types from instruments and appliances when used in conjunction with an ultrasonic cleaner. May be used directly in the ultrasonic tank or as a sonic conductor when using Optimize Tartar & Stain Remover.

For use prior to final sterilization.

Directions:

1. Dilute 1 part liquid concentrate with 10 parts water.
2. Total immersion time for items not to exceed 30 minutes.
3. Rinse items thoroughly with water prior to sterilization.
4. Prepare fresh solution daily or when solution becomes cloudy.

Caution: Alkaline solution can cause irritation upon contact with skin. Immediately flush eyes with water upon contact.

Danger

Causes serious eye irritation. Causes skin irritation. May be harmful if swallowed. May cause respiratory irritation if inhaled. Wear protected gloves/protected clothing/eye protection. Refer to product SDS for additional health, safety and disposal information.
